

Creekside Estate Winery

Creekside Estate Winery has been established as a leading producer of premium, VQA wines from Ontario since 1998, when founders Peter Jensen and Laura McCain-Jensen purchased a 15-acre vineyard and cottage winery. The winery has grown with a state-of-the-art production facility, new vineyards in Niagara-On-The-Lake and Jordan, and increased production of 30,000 cases annually. The vineyards reflect an ambitious portfolio of grape varieties, including Pinot Grigio, Chardonnay, Sauvignon Blanc, Shiraz and Pinot Noir. At the heart of the award-winning success of Creekside are winemakers Rob Power and Craig McDonald, who defy Ontario winemaking conventions by producing their wines from grapes once considered not viable in Niagara, such as Shiraz and Sauvignon Blanc. Their winemaking efforts have garnered many awards with a quality approach from vineyard to bottle. Experience wine country ambience at Creekside with a tour of one of the largest and oldest underground barrel cellars in the region, and tastings in the newly expanded retail store. In summer, look out at 16 Mile Creek while enjoying a gourmet lunch at the Creekside Wine Deck and Grill. From the vineyard to the bottle, Creekside Estate Winery is committed to excellence, and it shows.
